

ESNATECH RECEIVES UNIFIED COMMUNICATIONS® MAGAZINE'S 2008 UNIFIED COMMUNICATIONS PRODUCT OF THE YEAR AWARD

Telephony Office-LinX™ Recognized for Product of the Year

Richmond Hill, Ontario, Canada, May 12, 2009 — Esnatech announced today that Technology Marketing Corporation's (TMC®) Unified Communications magazine (www.uc-mag.com) has named Telephony Office-LinX as a recipient of its 2008 Unified Communications Product of the Year Award.

Telephony Office-LinX is the industry leader for SIP based Unified Communications. It is a pure application that interfaces to any enterprise phone system as well as all major Groupware platforms and core business applications such as Salesforce.com®, Google™ Apps, Microsoft Exchange® 2003/2007, IBM Domino®, and Novell GroupWise®. It provides communication functions such mobility, presence, CTI, messaging and speech natively to an organizations core business process. It was the first solution in the enterprise UC market to provide real-time high availability and disaster recovery by enabling one environment to scale over several nodes and integrate to multiple phone systems and services simultaneously. Telephony Office-LinX can scale up to 800 SIP sessions and 30,000 plus users.

“Being honored with the 2008 Unified Communications Product of the Year award from an industry authority such as TMC is a testament to Esnatech's product leadership in the Unified Communications industry. Telephony Office-LinX was designed and developed to deliver three key elements: Interoperability, Simplicity and Scalability.” *Davide Petramala VP Sales & Marketing Esnatech.* “Enabling these three key elements is what puts Telephony Office-LinX in a class of its own. The testament is the continued recognition from industry experts such as TMC and our ongoing deployment of over 500,000 ports of this application deployed world-wide.”

“Esnatech has proven they are committed to quality and excellence while addressing real needs in the marketplace. Unified Communications is pleased to grant a 2008 Unified Communications Product of the Year Award to their Telephony Office-LinX,” said Rich Tehrani, TMC President and Editor-in-Chief of Unified Communications magazine. “We’re proud to honor their hard work and accomplishments and look forward to more innovative solutions from Esnatech in the future.”

About Telephony Office-LinX™

Telephony Office-LinX is a Unified Communications platform that integrates Messaging, Presence, Mobility, and Mass event notification into a single integrated solution. It is already tightly integrated with RIM Blackberry, Apple Iphone, & Symbian devices as well as, Microsoft Windows, Apple Mac, Pocket PC, Mobile PC, Exchange, Office, Terminal Services and Outlook. It can be administered directly from an organization's Microsoft Management Console or through Terminal Services over the web. Users can be managed through Active Directory and Group Policy.

About Esnatech

Founded in 1989, Esnatech has been committed to developing advanced Unified Communication solutions that deliver core value growing organizations. Our mission remains to develop and provide industry leading communication solutions that integrate seamlessly with existing infrastructure and optimize the way businesses communicate. Esnatech communication solutions are designed for "real-time users" providing advanced features, investment protection, and platform upgrade capability without the planned obsolescence prominent in the communications industry. Esna Technologies powers over 40% of the telephony providers in the SMB market with its messaging, mobility, and presence platforms. Esnatech markets and distributes their products through global OEMS and VAR partners in over 28 countries worldwide. For more information please visit www.esnatech.com

About Unified Communications magazine

Launched in July 2007, Unified Communications magazine is devoted to educating enterprise decision makers on why and how they need to deploy unified communications (UC) solutions. Every issue of Unified Communications magazine features a comprehensive news section; case studies of successful deployments and lessons learned; interviews with leading hardware and software companies; and an 'industry' section, featuring analysis of important mergers and acquisition, partnerships and a Wall Street perspective on the unified communications market. Unified Communications has a readership of 160,000.
